

PHILODENDRON PLANT

High quality, hyper-realistic Artificial Philodendron plant characterised multi variegated leaves

Individual plants are set in a lightweight curved black plastic decorative pot that ensures the plant is correctly aligned and enables ease of placement into pots or planters of your choosing

Leaves and stems can be manipulated into a variety of positions to create a synergy with the environment, especially when arranged in large planters for a natural life-like appearance

Suitable for individual arrangement or plants can also be sold without pots for large planting areas.

Height 200mm or 380mm

Category: Small & Ornamental
